## Delivery Options

All bench prices are quoted ex works - delivery, and installation if required, can be arranged. We prefer to deliver ourselves whenever possible to prevent possible damage and to minimise inconvenience for you.

The possible options are -

### **1 Collection arranged by yourself.**

1,2m and 1,5m benches can usually be transported quite easily in small estate cars or small vans. You may wish to organise collection by company transport or send your own carrier. There may be a charge to package the bench against damage.

### **2 Delivery by us in a combined delivery run.**

We are happy to deliver anywhere in the United Kingdom (mainland) using our own transport and can usually carry this out for a reasonable price providing we can combine a number of deliveries in the same run.

Deliveries to Scotland have been arranged in this manner - for this run to be viable we have to combine at least 4 deliveries.

We will usually quote you on the basis of inclusion in a combined run.

### **3 Delivery on a pallet by a national carrier.**

We have used this method successfully to deliver benches throughout the UK when it has not been possible to combine deliveries or the bench was required in a tight time frame.

The bench has to be securely fastened to a pallet and protected against damage using cardboard and bubble wrap.

The charge for "palletising" is £25 and the charge for delivery is dependent on the destination but will be in the order of £65 - £120.

It is not usually possible to predetermine the day/time of delivery without an additional surcharge.

Removal of the bench from the pallet and disposal of packing etc will be your responsibility.

Installation of the bench is obviously not an option in this instance.

### **4 Delivery by us in dedicated run.**

We are prepared to delivery anywhere in the UK in a dedicated run in order to meet with your timing but the charge will be according to the mileage travelled and currently this is £ 0.70 per travelled mile plus toll/congestion charges.

This charge may have to be reviewed in light of rising fuel charges and will be confirmed when the order is placed.
